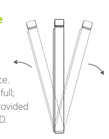
Checking ADD's Battery Life

ADD features an LED battery life indicator. Battery life can be easily displayed by gently shaking the device. If all four LED lights are on, power is full; if no lights turn on, please use the provided micro-USB cable to recharge the ADD.

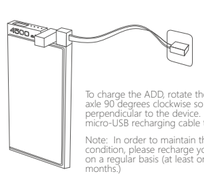


Charging Your Mobile Device

Connect your mobile device to the power bank with the provided USB cable or appropriate connector.

Note: "ADD" is compatible with most digital devices, such as tablets, mobile phones, MP3 players, E-Readers, digital cameras etc.

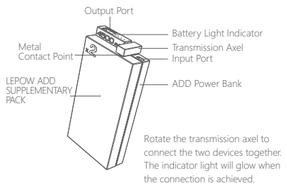
Charging Your Power Bank



To charge the ADD, rotate the transmission axle 90 degrees clockwise so that it is perpendicular to the device. Connect the micro-USB recharging cable to the input port.

Note: In order to maintain the batteries' condition, please recharge your power bank on a regular basis (at least once every six months.)

"ADD" Combine with the LEPOW ADD SUPPLEMENTARY PACK to expand Capacity to 9,000mAh



Rotate the transmission axel to connect the two devices together. The indicator light will glow when the connection is achieved.
